## For panel proposals:

1. Provide the name and affiliation of the organizer(s), and
2. Provide a title and 150-word abstract for the panel suitable for inclusion in the program.
3. In addition, list all names, affiliations, and paper titles as you want them to appear in the program and suggest an order of presentations if you have a preference (otherwise presenters will be arranged alphabetically) NOTE: Individual authors on organized panels may either submit separate paper abstracts and registration materials or the materials for the entire panel may be submitted together..
4. Plan for **20 minute paper presentations + 10 minutes discussion time** in panel time blocks of **90-minutes**. In general, papers will be listed in the program with set start times, holding all discussion time to the end of the session. If organizers want discussion time after each paper, please request that arrangement. Variations from the 90 minute panel time blocks may result in organized sessions being placed in late afternoon panel assignments. Also, each discussant will be allotted **20 minutes of reaction time + 10 minutes of response from presenters** (i.e., the same amount of time as regular presenters); if you arrange for formal discussants, they will be scheduled in the same way as presenters.
